CITY AND OUTPORT ELECTORS DISPLAY PREFERENCE FOR PROGRESSIVE LIBERALISM

Bell Island Accords Stirring, Enthusiastic Welcome to Liberal Trio

Last Night — Popular Endorsement Given

yesterday. The people have been

so aroused by the sensational disclosures of graft and corruption,

and the awful manner in which the public Treasury of this Colony has

been looted by certain members of the Tory party that they are now

determined, once and for all, to drive those Tories, who have be-

come millionaires, at the expense of the people, out of public life in

Newfoundland.

Last night a most successful

meeting was held in the Hall of the

Mr. Monroe (the nominal leader) was written by Mr. Morine, and that is enough to question its sincerity, as it contained nothing but words and false promises. It was ever thus.

The Hickman manifesto, standing for real clean government, progress and industrial development, was then dealt with, and as each section of it was being explained, the many war veterans present showed particular interest in that paragraph dealing with the compassionate clause, which will give financial assistance to veterans and dependents. The veterans present showed their appreciation by their unbounded enthusiasm and frequent rounds of applause.

Popular Programme.

Very much concerned also were the miners and workmen generally present as Mr. Emerson dealt with the paragraph that affords protection for Mld. workmen and provides for a minimum wage.

Other phases of the manifesto were thoroughly explained, and as the speaker took his seat he was cheered to the echo.

Mr. Ryan followed in a brief

though practical speech, pointing

out the wrong doing that had taken

place under Tory misrule, showing

how the Colony and its people had

been victimised at the hands of a

few. He stood for Liberalism and

clean government, as embodied in

the Hickman manifesto, and in

taking this stand he hoped that the

people of Bell Island would support

him and vote the straight ticket

for the Liberal candidates.

Always Staunch Liberal

Mr. Caul next took the platform.

He was young in years as a

candidate in political life, but was

old in experience. He had always been

a supporter of the Liberal Govern-

ment, under various leaders, in the

past.

In a stirring address he dealt

ably with the progressive policy

of the party he represented and

trusted that Bell Island would not

forget to vote for numbers 1, 2

and 5 on the ballot paper on poll-

ing day.

After a vote of thanks had been

tendered the Chairman, which was

carried by acclamation, the meeting

closed with the singing of the

National Anthem.

DANIEL'S HR., May 23.—The Liberal Candidate, Mr.

J. H. Scammell, arrived here late last evening and addressed

a meeting at ten o'clock. There was certainly some differ-

ence between the able, statesmanlike address of Mr. Scam-

nell and the petty abuse of Jenkins thrown out the other

night on behalf of Moore.

The people here are disgusted with Jenkins and every-

body agrees Scammell will poll more votes than last spring.

We have no use for treachery and Monroe can't win.

THE OLD GUARD.

The present opposition could

not hold the Government for more

than two or three days. They

fought among themselves for place

and pay, and the Daily News de-

scribed them as "mercenaries."

They are the same mercenary

aggregation, who smashed up

their own Government, because

the Higgins-Walsh-Crosbie-Moore

element would not consent to have

further investigations.

Now, the Daily News says that

these mercenaries are a new party

who should be entrusted to "clean-

up and keep clean." Who are

they? There is Crosbie (with his

record of graft; there is Moore

(with his record of graft). These

two men alone have taken con-

siderably over 2,000,000 dollars

out of the public treasury for

which the taxpayers must always

pay.

Then there is Morine (a splendid

type of politician to clean-up); and

all the Old Guard, including Wood-

ford, P. Cashin, Joe Moore, Mon-

roe, Walsh, Sullivan, Sinnott, Avra-

et all.

Some new party! Is it not time

for the News to wake up to the

fact that the general public know

a thing or two?

WASHINGTON, May 21.—The sen-

ate Daugherty committee was told to-

day that representatives of the De-

partment of Justice had not only

sought to "frame" Senator Wheeler,

its prosecutor, but had spied on its

members and its witnesses and had

spirited away the famous diaries of

Gaston B. Means who was working

with it as an investigator.

Church Lads' Brigade Resents Use of Initials "C. L. B." by Politicians

Strong Protest Made Over Tactics Which Tend To Drag
Name of Brigade Into Politics.

PROMINENTLY DISPLAYED about the City are political

show cards on which the initials C. L. B. are played up.

The initials are those of the world famous organisation, the

Church Lads' Brigade, and are also the first letters of the

name of the three Opposition candidates, in the District of

St. John's West, Crosbie, Linegar and Browne. The dis-

play made by the Opposition of these C. L. B. initials in a

partisan political connection has caused resentment in

Brigade circles and Lieut.-Col. Rendell, Commanding Of-

ficer of the Church Lads' Brigade, has asked us to publish

the following letter dealing with the matter.

The Editor

Evening Advocate.

Dear Sir,—It has been brought to my attention that the

initials C. L. B. are being used as a political party catch-cry.

It is well known that the Church Lads' Brigade is usually

referred to as the "C. L. B.", and the use of this term for

the purpose above stated is resented by the supporters of this

organisation, no matter what their political creed may be.

I am most anxious to make it known to the public

that the Church Lads' Brigade has absolutely no connection

with or interest in politics. It is essentially a Church organ-

isation, and is forbidden by its Constitution to have anything

to do with political matters.

It would be greatly appreciated if you could find space

to publish this letter in your esteemed paper.

WHAT TRUST CAN BE PLACED IN MORINE

"Now, I think a great deal of what is stated here has been known in Canada: I know that my right hon. friend had a large part of this information in his possession two years ago, and so far as these statements are concerned, I have read nothing that is not in the official documents. IN VIEW OF ALL THIS I WANT TO KNOW WHAT FAITH, WHAT CREDENCE WILL THE PEOPLE OF CANADA PLACE ON THE DECISION OF A COURT OF ENQUIRY PRESIDED OVER BY A MAN OF THE REPUTATION DESCRIBED IN THE DOCUMENT I HAVE READ. If my right hon. friend (Premier Borden) is going to investigate the public service of this country, he should do it by men who, as he said in his platform, are above reproach, men in whom the people will have confidence, men in whose judgment and fairness the people will have confidence." NOMINATION DAY is here and case, the followers of Premier the representatives of both Hickman will be carried back to parties in the Election Campaign power on June 2, on the crest of are formally submitting their one of the highest waves of popularity for the Ballot Papers in lar sentiment that has ever swept the various districts. With Polling only a few days away it is interesting and significant to note the trend of the news reaching the City from various sections of the Country.

From a commercial traveller who went north on the Prospero and from other passengers on that ship, we have received reports of the political sentiment manifest along the east coast. The steamer had reached Change Islands when the last message was despatched to us stating the general outlook in the various sections visited. The reports separately and as a whole show that the tide of Liberal sentiment is rising high all along the East Coast.

Trinity Strongly Liberal.
In Trinity District, it seems, the Opposition team made first for strongholds which had proved their settlements which had proved their But, to their disgust, they found a radical change of sentiment Halfyard, Randall and Godden assured of much bigger majorities than those piled up in 1923, majorities that will rival, if not exceed the record of 1919.

In Bonavista District the situation is much the same as in the District of Trinity. Mr. Monroe and his colleagues have lost a great deal of support that was theirs last general election. They can no longer depend on big votes in certain of the Bay centres. The indications are that Barnes, Forbes and Stick will receive double the majorities of the Government team in 1923.

Reports from Fogo district are for a huge majority for Mr. Hibbs. There has been a notable rally to his support of all his old friends of the 1919 election and his opponent, Capt. M. Dalton, will be fortunate to save his nomination fee.

Such was the situation along this section of the East Coast at the time of the Prospero's voyage north. This sentiment was not only plain to note but was notably increasing. And, that being the

LIBERAL CANDIDATE HIBBS GETS WONDERFUL RECEPTION IN FOGO

EXPOSES LATEST TORY ATTEMPT TO FOOL THE PEOPLE AND SEIZE THE GOVERNMENT

ADVISED MR. JOE MOORE TO GO BACK HOME INSTEAD OF PROCEEDING NORTH

FOGO, May 22—The Liberal standard bearer, Mr. R. Hibbs, held a public meeting here last night. Mr. Oake occupied the chair and a very large audience was present. Amongst the audience was the Tory candidate for St. Barbe, Mr. Joseph Moore. Mr. Hibbs appeared in splendid form and from 9 o'clock till 11.15 he literally tore to ribbons the deceitful and hypocritical propaganda of the Tory party. The Liberal candidate stated that he could not understand how clean, honest minded men could associate themselves with the old grafters, and after exposing in most forceful language, the latest Tory attempts to seize the government he advised Mr. Moore to quit and go home. Mr. Moore was seen to congratulate the speaker after the meeting closed. The name of Hibbs is sufficient in this district. He was received with great ovation.

Opposition Manifesto Abusive Liberal Manifesto Constructive Read 'Em and Compare, Electors

IT IS A COMFORT and a satisfaction, to turn from the abuse and the general childishness of the Opposition Manifesto to the dignified, informed and practical treatment of our present condition and our future outlook as presented to the Voters in the Manifesto of Premier Hickman, leader of the Liberal Party.

The Manifesto signed by Mr. Walter S. Monroe is one of the hollowest and most meaningless productions ever offered to the Newfoundland Electorate by the leader of a local political party. It appeals to the reader as a document hastily prepared, based on nothing but wandering thoughts and rambling ideas, which are strung together by the thread of strong personal prejudices and dislikes. It is not well-reasoned and does not constitute an appeal, to reason. It is not a statement of facts and of deductions therefrom, and so does not appeal to the intelligence of the voters. It is silly and futile; infantile and weak; illogical and unimpressive. It is the production of the kindergarten of public life. It is obviously the essay of one who is neither an idealist nor a practical student of public affairs. From beginning to end it is frothy and inconsequential, the sort of sorry trash that satisfies nobody but the man who used it as a vehicle for attempting to convey to the public his own personal dislikes and animosities in politics.

By Way of Striking Contrast.

But, the Manifesto of the Liberal Leader is a document of vastly different tone and contents. In the pronouncement on public affairs and his statement of public policy, Premier Hickman strikes a high, practical and impressive note. His references to scandals in public life are characterised by simplicity and by sincerity. He impresses the voter with the feeling that he says what he means and means what he says. Questionable conduct is to be probed most thoroughly. Scandals are to be hunted down and exposure meted out to those responsible therefor. Wrongdoing is to be referred to the courts of the land. The purpose and the policy of the Liberal Party is the restoration in its fullest sense of respect and obedience for law, no matter who has offended against decency and good taste by ignoring the laws and setting them at defiance.

The Liberal Leader's Manifesto is outspoken. "Respect for the law must be re-established in the land and that necessary end can be attained only by strict enforcement of the law and its full obedience by all classes of our population. On this point the Liberal Party is emphatic in its definite pledge to the Electorate. The gentlemen associated with me in the Liberal Party have already displayed their anxiety to have the conduct of public men during the last few years thoroughly probed. I take this opportunity of pledging myself personally and on their behalf to have instituted with the least possible delay such an investigation as is calculated to lay bare wrongdoing in connection with the public life of this country. There will be no shirking of this important issue; no consideration for rank or for position; no provision of scapegoats; no display of favoritism or of party or personal spleen, but an impartiality of treatment, just as there will be promptness and equality in bringing cases before the courts of the land. To this end I pledge myself and the gentlemen who are associated with me in the Liberal Party."

Here, then, is an undertaking couched in the plainest language and in the most definite terms. The pledge is unconditional. It is an unqualified promise to clean up our administrative household and not only to conduct the cleansing process thoroughly, but to make it plain that the terrors of full exposure and the most drastic penalties of the law will be the lot of those who at any time abuse the confidence and betray the trust of the people.

Industrial Benefits of Liberalism.

It is with pardonable pride that the Leader of the Lib-

eral Party points to the notable achievements of that great and progressive organisation on behalf of the general public of Newfoundland. The Liberal Party during the last generation has established within this Country industries that provide permanent and profitable employment for close on ten thousand of our Fellowcountrymen each year. Contrast with that record the results of Tory rule in Newfoundland. Consider the results of the last long term in office of the politicians who compose the present Opposition. They raised huge revenues every year and spent them all. Not only did they dissipate every cent of such revenue, but they drew from the bank and flung as a sop to their insatiable partisans the reserves created by Sir Robert Bond, the grand old Liberal Chieftain. More, they borrowed millions of dollars which were spent recklessly and extravagantly and without benefit to the people. In all, during their last term as a Government, the present Opposition made ducks and drakes of the huge amount of Eighty Million Dollars. Crosby got his millions. Moore got his hundreds of thousands. Other Tories got their thousands and tens of thousands. But what did the people get? The burden of taxation borne by the Common People today was in great part imposed to pay interest on money obtained by the Big Bosses of the Opposition while in power.

Vastly different is the record of the popular and progressive Liberal Party. That record is eloquently and correctly described in the Manifesto of Premier Hickman. A notable achievement of Liberalism is "the initiation of the great Humber project which is now taking care of thousands of our workmen, is the medium for the expenditure of hundreds of thousands of dollars in wages in this Country and which has given Newfoundland a new impetus along the highroad towards completely restored prosperity. For this achievement Newfoundland has to thank the Liberal Party. The policy of that organisation has always been one of industrial advancement. The Humber undertaking is the striking example in these times of the truth of that assertion. Liberalism stands for the material progress of the Country. Right down through our whole political history there stands to the credit of the Liberal Party the achievement of a long list of progressive undertakings from the Railway Policy of Sir William Whiteway's day to the Humber undertaking, which is the pride of the Liberal Party of today."

Rule of Toryism Barren of Benefits.

But the regime of Toryism has been barren of benefits for the Common People of Newfoundland. Is it not a fact, Fellowcountrymen, that under the regime of present Opposition politicians the wage-earners were treated as hewers of wood and drawers of water for the Big Bosses. Their earnings were levied on to produce great fortunes for those who sat in high places. The interests of the People suffered. The future of the Country was sacrificed. The welfare of the country was mortgaged. The few benefitted financially; the many were ground down.

These are the men who ask for a new lease in power. These are the politicians who profess to be eager to return to office to serve the People. They trust to blandishments and to hypocritical pretensions to accomplish their object. They cannot condone the past. They cannot bury their records as tricksters and as grafters. They cannot even offer an attractive policy to gain their ends. They have no such policy to offer. Their present Manifesto is as barren of plans for popular benefits as their past regimes. They prate of cleanliness and decency, who gave to the world an example of demoralisation and debauchery unrivalled in all our history. They profess a monopoly of decency now, yet when they held the reins of power they flung all decent considerations to the winds and created in Newfoundland the evil conditions that now have to be rectified. Barren of good; barren of popular benefits and barren of public spirit, they now show themselves incapable of consistent conduct, declaration or pronouncement. More, they are self-confessed incapable of discussing the country's condition or affairs intelligently or of providing for its future beneficially.

Popular Programme of Liberalism.

But, not so the Liberal Party. It has worked hard, continuously and successfully for Newfoundland and Newfoundlanders. It has accomplished much of popular benefits in the past and its programme provides for many such benefits for the future. Newfoundland has never been stagnant under Liberalism. The interests of the people have ever been first and foremost under Liberal rule. And, in looking forward, Liberalism always plans with an eye single to popular interests and devotes itself unswervingly to attain the end desired. It has been so in the past and it is so now.

On the continuance of the traditional and progressive policy of Liberalism the Manifesto of Premier Hickman is definite and emphatic.

The Liberal Party proposes to continue to exert itself without ceasing to induce further capital investments in Newfoundland. Already outside financiers have indicated a willingness to develop the great industrial resources of the Gander Valley along lines similar to the undertaking

"in the Humber Valley and at Corner Brook. The proposition is to establish a pulp and paper plant of about the same daily capacity as that at Grand Falls. The installation will involve the expenditure of about twelve million dollars in this country and will provide employment for at least two thousand men, while its operation will take care of at least a thousand local workmen per year. An immense power plant will be a feature of this installation and the surplus horsepower will make easy of development extensive and valuable mineral deposits within a long radius of the plant. No guarantees or special concessions have been required of the Government of Newfoundland by the promoters of this great undertaking.

"Equally important is the pledge of the Liberal Party to encourage, as far as is reasonably possible, the exploitation of our undoubtedly great mineral wealth to the general industrial and economic benefit of our people. The attention of capitalists is being attracted to the extensive copper deposits in the vicinity of Notre Dame Bay. Just as the Liberal Party realised for Newfoundland the dream of full development of its West Coast timber areas, so it now undertakes to translate into reality the vision of great copper production and manufactures on the east coast of the Island. To this end financial connection will be made abroad immediately after the return of the Liberal Party to power in order to add another to our rapidly growing list of profitable local industries."

A return of the Tories to power will result in industrial stagnation in the land.

The re-election of the Liberal Government will ensure the creation of new industries to the great good of the Country generally.

A CHALLENGE FOR THE TELEGRAM

FOR SEVERAL DAYS The Telegram has been demanding the name of the business man through whom Sir Michael Cashin received Controller's Department Cheques totalling \$22,000 and under circumstances that, the auditors state, require explanation.

The Telegram states that we have withheld his name because he supports the Hickman Party."

The Telegram thus admits that it knows all about the contents of the auditor's report from which we have quoted.

Why didn't The Telegram tell the circumstances to the public?

If The Telegram know enough about that Report to state that the man who sold the liquor is a supporter of the Government, why doesn't The Telegram reveal his name and couple up his name with Cashin's in the exposure we have made?

If The Telegram has the name, it should be anxious to publish it and thus to expose one who, it asserts is strongly supporting the Liberal Party.

The Telegram has professed an intimate acquaintance with the report. The Telegram has asserted it knows the contents of the report. The Telegram intimates it is aware of the name of those mentioned in the report.

To justify its claims, The Telegram must name all the men involved.

If The Telegram does not do this it is because it cannot do so, and its neat little bit of bluff is therefore, patently exposed.

Can you imagine The Telegram shielding a political opponent, Mr. Voter? You cannot.

The Telegram is intent only on shielding the Cashins and its other political associates, intimates and friends.

If The Telegram knew a Government supporter was mixed up in questionable relations with the Liquor Control Department and had the name of such a supporter, The Telegram would give the circumstances and the name the promptest and most prominent publicity it possibly could.

The Telegram has failed in such publicity, because The Telegram has no such knowledge as it professes to possess.

BLUFF AND DECEIT ARE POOR WEAPONS WITH WHICH TO FIGHT A GENERAL ELECTION, MR. TELEGRAM.

A lower court gave the widow her claim, but the company appealed and the former decision was reversed. Foreign Despatches

WASHINGTON, May 22.—A Liquor treaty with Sweden, similar to those already negotiated with Great Britain and Germany, was signed at the State Department to-day. Secretary Hughes and the British Ambassador, Sir Esme Howard, to-day formally exchanged ratifications of the Liquor Treaty with Great Britain, concluding the process of putting the pact into operation.

CHATHAM, Ont., May 22.—The heavy frosts of the recent nights have caused a loss of more than \$500,000 to the tomato growers of Kent County, and the Leamington District, according to the estimates of the Agricultural men. Fruit growers fear that the peach crop, which promised to be very light, will be seriously affected.

NEW YORK, May 22.—More crime was experienced here the past 24 hours than in any other similar period in several months, according to the police record. The first occurrence was a holdup yesterday morning in which one of two bandits was shot and killed by the police. The last was early to-day when four ticket offices of the elevated and subway transportation lines and east side store, were robbed almost simultaneously. Five armed men took part in one of these holdups. Two other robberies occurred during daylight hours yesterday. Axel Johnston and Albert Lake, two payroll guards, were shot down and \$700 taken from them in Brooklyn. It is declared in police circles that the city is in the midst of another "crime wave". The last outburst culminated in arrest and conviction of the bobbed haired bandit.

NEW YORK, May 22.—George L. Tex Rickard, Frank B. Flourney match-maker at Madison Square Garden, which Rickard leases, and Fred C. Quimby motion picture distributor, surrounded to-day on Federal indictments charging them with transporting the Inter-State Commerce, the Dempsey-Carpentier fight films. United States Commissioner Hitchcock held each defendant in \$2,500.00 bail, for hearing on June 2 in Newark New Jersey.

WASHINGTON, May 22.—An account of some of the difficulties faced by Harry M. Daugherty, as Attorney General, and a plain spoken affirmation of faith in his honesty and loyalty, were given the Senate Daugherty Committee to-day by John W. H. Crim, who served with him throughout the troubled days of his tenure, as head of the Department of Justice. In his long and close association with the former Attorney General, Mr. Crim said he never found ground to suspect him of corruption. It will take a lot of evidence, he told the Committee, "before I will believe that Harry Daugherty ever took a cent of crook money through Jess Smith." He had his faults but I'll have to judge the evidence before I'll believe he prostituted his office. He never faltered. Crim described Smith as a good natured fellow, a hanger-on, a man of some means, who ran errands for the Attorney General.

KASIMIGURA, Japan, May 22.—Three United States Aviators flying round the world arrived at Kasimigaura Japanese Naval Aviation base fifty miles northwest of Tokio at 5:40 p.m. to-day. Their flying time for the 354 miles hop was five hours and ten minutes.

Tory Meeting A Farce, Grand Falls

Grand Falls, May 17, 24.

To The Evening Advocate, St. John's.

Here last night the Opposition held a meeting in the R. C. School, and I attended same, but sir, I am still supporter of the noble three: Brown, Grimes and Ashbourne. Why wouldn't I? As for what Mr. Ayre and Peters said, there wasn't anything to it whatever. You know what sir? I think myself that when they heard the news on Friday that they felt as if their Equilibrium was upset; where the joke came in, you know, was when Mr. Peters was telling about Mr. Ayre's family connections in Twillingate. But sir, Mr. Ayre and his party isn't sure to get elected in this district, not by a long-shot! I almost forgot it. In Mr. Ayre's remarks he stated that if he could only get that man on the North side of this bay to stand with him and Peters, that he, Mr. Ayre would throw his cap in the air for his election in this district. I said to myself, "yes, sir and your coat also." Sir I am going to tell you the truth. I never attended such a dead concern in all my life before. I wish that you were here to contrast the two meetings of the Liberal and Tory. What a difference. Just as much as day from night; but sir, I am going to tell you that Brown Grimes and Ashbourne has not had their final meeting here yet. I feel sure that there will be something doing around here on that occasion. At this Tory gathering on the 16th, they had a special speaker, in the person of Mr. Nugent. He spoke and his subject was "pretty polly."

Mr. Editor, don't worry, Brown Grimes and Ashbourne for Twillingate sure, and Mr. Ayre, Peters and that New Man, is as clear of it as the first clothes that ever they wore. Come on Twillingate, follow my example which will be this way:

BROWN X

Get Big Reception at Petty Hr.

**LIBERAL SENTIMENT IN ST. JOHN'S WEST WILL
SEND TORY TRIO TO DEFEAT.**

PETTY HARBOR was the scene of a most enthusiastic political meeting last evening when the winning trio for St. John's West Fitzgibbon, Dowden and Duffy addressed the electors in a manner which interested and enthused. Scores of residents said a more successful meeting had never been held and that Petty Harbor would roll up a majority for the Liberals that they had never secured before.

At the committee meeting, Wednesday night, Mr. Fitzgibbon stated that Tories had advised him not to go to Petty Harbor, they would not be allowed to speak as Sir John Crosbie had that place in his pocket. His reply was, Fitzgibbon, Dowden and Duffy will go and will have a successful meeting, too, for he knew the people of that place, supporters and opponents, both liked British Fair Play. The result proves that Mr. Fitzgibbon knew whereof he spoke for the meeting was grand and great.

During the afternoon a visit was paid to Maddox Cove where the residents received the candidates courteously and requested them to come again and address them in the hall.

The fishermen were busy during the day preparing their fishing gear but at night assembled in the hall in large numbers. Seats were at a premium and the gallery and hallway were crowded. Mr. Thomas Henry Whitten occupied the chairs and introduced the candidates.

Mr. Fitzgibbon spoke first and delivered an address that made a wonderful impression.

He first paid tribute to Sir Richard Squires and Dr. Campbell, his colleagues in the last contest, and then thanked them for the support then given. He showed up the low tactics of the Tory press and pointed out that its reports of meetings was only an attempt to belittle them. It was not his intention to be personal; he had gone through the last election without abuse of his opponents and it was his intention to do the same this time.

Mr. Fitzgibbon then dealt with local matters, referring to the great monument to Sir Richard Squires, the new bridge which was a credit to all, a convenience to all, which would last for a hundred years. The great disadvantage in not having a daily mail service with St. John's was next dealt with. The trade of the town warranted it, the people needed it, and when he and his colleagues were elected it would be one of the first matters they would consider.

Another drawback which needed attention was telephone connection with the Telegraph office at

the Goulds. At present there is no telegraph connection and this would also receive early attention. Other matters of local concern were dwelt upon in a manner which proved to all that Mr. Fitzgibbon will be a worthy representative. At the beginning of his brilliant speech, throughout it, and at the close the speaker was applauded thunderously, showing that he had the sympathy and support of all.

Mr. Duffy was next introduced and he too was enthusiastically received, although it was his first political speech at Petty Harbor, he felt quite at home. He was not a stranger because he had had business dealing with many of his audience and he assured them the same honest dealings in the future as there had been in the past. Mr. Duffy has made himself immensely popular since entering the contest and is adding to his long list of supporters every day. The price of fish is good. A fisherman today could not only get a barrel of flour for a quintal of fish but a pound of tobacco thrown in; gasoline is thirty per cent lower than it was a year ago and pork provisions, etc., are much lower than last year and the Great Liberal party which he represented would see to it that the commodities of life would be even cheaper. Applause loud and long was given him by the audience. Mr. Duffy is a man that any place can have confidence in.

Councillor Dowden followed and having thanked his friends for their enthusiastic reception handled the Manifesto of Prime Minister Hild man in a manner which would do credit to any young Newfoundlander. Our codfish is the best in the world and with a good cure there is no doubt the price will keep up. The price at present is \$8.00 and there is every indication that it would remain high and give the fisherman a comfortable living. The Hon. Mr. Hickman had pledged his party that he would leave no stone unturned to improve conditions abroad.

He supported Hon. Mr. Hickman, also because of the bounty on a good cure of fish, and they would see that every cent of it went to the fishermen. The Humber proposition was dealt with and the tactics of the Opposition in knocking it was shown up. In the course of a few weeks there will likely be several thousand men more employed there and with the Gander industry running in full swing in the near future as he hoped it would be, there will be employment and happiness for all.

Mr. Dowden spoke for half an hour and his address was punctuated with rounds of applause.

Let the public make no mistake Petty Harbor will treat the Liberal trio generously.

As an evidence of the fact that Fitzgibbon, Dowden and Duffy are making the Tories sit up and take notice, they sent two of their agents out by motor car to see how things went. They saw the crowded meeting and heard the applause given the speakers, let them tell the truth about it today.

MONTREAL, May 21.—Forty steam craft will partake in a ceremony in Montreal Harbor on Saturday next, when a small silver buoy, bearing up a flower-covered anchor will be dropped into the river to float down St. Mary's current to the sea, in honor of the sailor dead. The tribute will be paid under the auspices of the last post fund.

Heard on the Street

That Crosbie would rather eat Read Son & Watson's report in to the Liquor transactions than have any more investigations. It certainly looks like it.

That Crosbie got \$469,000 for Patrol Services in War time. It might have been more and it might have been less. They are looking for chaps like Crosbie down in Mexico, where they are short of politicians of his calibre.

If anybody can mention a politician who got more money out of Governments than Crosbie got I haven't seen him. He certainly got over a million dollars and I would

n't give him a vote if he was the last man on earth.

Again: Politicians with reputations like Crosbie have to take a back seat these times. Whoever is elected we don't want grabbers like him.

And yet again: If Crosbie is the kind of grafter that's wanted, The News has got to cut out the head-lines: "Clean up and keep clean."

The above are independent remarks heard on the street, and if people vote as they speak Crosbie will never be elected in the West End or any other district. Bay

de Verde got disgusted with him, and Port de Grave electors are only waiting a chance to trim him. But he won't go there again. Why should he be elected for any dis-

trict? When he was elected before he became a domineering tyrant, a vulgar bombast of the chewing gum variety. And he became affiliated with an incurable disease—the love of money. He was defeated last year because the people have got him sized up for what he is. From all we can hear, he is the most undesirable politician before the country today, and he is not improving. You needn't kick him but you can knock the bambastic conceit out of him by putting him at the bottom of the poll.

West Coast Is Solid For the Liberal Party

S. S. PORTIA'S PASSENGERS AND CREW BRING
GREAT TIDINGS OF SWEEPING GOV-
ERNMENT VICTORY

BURGIO, FORTUNE AND BURIN DISTRICTS ARE
LINED UP WITH GOVERNMENT PARTY

ST. GEORGE'S SAFE FOR DOWNEY

THE West Coast is with the Liberal Party. The districts of Burgeo and La Poile, Fortune and Burin will elect four Liberal candidates with sweeping majorities.

That is the news which passengers and the members of the crew of the Portia, arriving yesterday from the West Coast, bring to this city.

From Port aux Basques, the Portia called at all the usual ports of call in the southwest coast districts and everywhere public sentiment is flowing freely with the Government. Everywhere determination is expressed by the masses of the Western electorate that the Liberal Party shall go back to power and that the aims of the Cashin-Morine party which aims could not be accomplished by political intrigue shall not be accomplished at the polls on June 2nd.

We are informed that not since the year 1919, when the Liberal Party won such an outstanding victory over the present opposition, has public feeling approached the present antagonism towards the present Opposition.

Significant of the strong government feeling in the district of Burgeo and La Poile is the fact that a Mr. Hodder, who by the way, was the gentleman so disastrously de-

feated in Trinity last year, returned by the Portia yesterday absolutely conceding the district to the Government candidate, Harvey Small. Mr. Hodder was sent up to the district, at the instance of Mr. A. B. Morine, in order to assist Chambers, the Tory candidate. He has come back ten days before the election realising the futility of staying up there any longer.

Press despatch, and private messages received from the district and telegrams from Small himself all agree that the Opposition party have no show whatsoever in Burgeo District. In confirmation of this is the fact that Mr. Chambers' meeting in Channel fell flat and was taken over by Mr. Small's supporters and also the fact that Mr. Hodder, who went ashore in Rencontre, was received so coldly and encountered such enthusiasm for the winning Government candidate that he withdrew to the Portia, without bothering to put in a word in support of the Tory candidate. There is a lot of annoyance in the Opposition camp today over Hodder's coming to town ten days before Polling Day and it is considered he has not played the game by the Tory party, as he should have found a quiet spot up there and stayed until the elections were over, instead of giving away the Tory defeat so prematurely.

SUCH PAINS AS THIS WOMAN HAD

Two Months Could Not Turn in Bed.
Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. Richardson, 4640 Orcus St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after "trying everything any one told me" had failed. If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

As for Fortune Bay, it is a foregone conclusion that the Opposition candidate, Jeffries, will not save his nomination fee.

As for Burin district, Harris and Winter will sweep the district.

Besides the deep antagonism to the Opposition politicians whose conduct for the last twelve months in public matters has been closely considered, and besides the arousing of public feeling resulting in the recent Liquor sale exposures, there is a widespread disgust over the fact that the defeated Tory candidate, Mr. Long, who cowardly ran away from his certain fate in Fogo district, should be foisted by Higgins and Monroe upon Burin district.

It is a certainty that the West Coast is with the Liberal Government; and included is St. George's where Hon. J. F. Downey's election is conceded on all sides.

The utter despondency in the Opposition camp is thus explained. Their own candidates have wired headquarters repeatedly that the West Coast is solid for the Government. They now see that Treachery never triumphs and that the Cover-up Party cannot succeed.

Harris, Winter, Lukins, Small and Downey are winners.

Campaign Comments

Great news from the West!

Liberal Candidates will sweep the Tories out of existence.

Monroe is a sure enough loser. He won't get a corporal's guard to uphold his rotten cause.

And Crosbie will get his in St. John's West.

Already he has to send his hirelings to interrupt Liberal meetings.

Crosbie is rowdyish and noisy. It's the greatest weapon in his armoury, but it won't get him far in St. John's West.

And Mr. Chambers' helper didn't make a hit on the West Coast. He was returned alright, just as many of the Tory candidates will be returned after Polling Day.

Poor John Rorke has entered politics under most unfavorable auspices. He should have sense enough to know that Carbonear is determined to be on the Government side this time.

John Puddester goes to his third defeat in Bay de Verde, or is it his fourth? Pudd is sure a hog for punishment. Bay de Verde'll cram it down his neck this time.

The Telegram sneers at Premier Hickman because he is an outport man, but what could one expect from Morine!

Oh, yes! Alfie B., the man that said Newfoundlanders were too green to burn, is now editing the Telegram while Jeff has gone to Fortune Bay to taste the bitterness of failure first hand.

Morine is the Opposition's handy man. He fits into every job but the one he has for years been most anxious to get.

The Tory Opposition won't have Morine for their nominal leader but they do accept him with many thanks as their guide, philosopher and general factotum.

And William Woodford is dissatisfied now. William is a gentleman of dissatisfied nature.

Mr. Woodford thinks Cyril Cahill is the right man in the wrong place.

Bad as Woodford's position is now, Leo Carter will make his lot altogether unbearable after June 2nd.

Emerson is the man for St. John's East.

He is the type of man St. John's East has been looking for to represent the District in the House of Assembly.

The Tory candidates in the Northern Districts are so lost that they have to go to the Government men's meetings looking for inspiration.

Jim Ayre is up against it. He can't get voters to address his meetings for him.

Joe Long took the tip to "Go West Young Man" too literally.

What the Tories lack in honest argument they try to make up for in noise, lies and abuse.

No use, gentlemen. Newfoundland is wide awake and on the lookout.

Bonavista Bay will teach Monroe a lesson this time.

For the decoration of the HOME

THE high quality of "Walpamur" Water Paint makes it eminently suited for the decoration of the home. "Walpamur" is washable and perfectly sanitary. When redecoration is required there is no need to have it removed as in the case of distemper, also, it can be applied on old wall papers. These are the reasons why it has become the most popular flat washable wall paint.

Barnes, Forbes and Stick will be at least 1,000 votes ahead of the highest Monroite.

Bonavista and the whole South Side of the district is practically a solid unit for the Government candidates.

The Cape Freels section is also a solid block whereas the few places where Monroe had his support have completely gone in a body for Premier Hickman.

Private messages have been received from the Monroe team which tell the sad truth that there won't be a man left to tell the tale.

First Dominion Conference G.W.V.A.

SECOND SESSION.

Chairman, Major W. H. Parsons, M.C., of the Board of Pension Commissioners for Newfoundland, addressed the Conference.

Last night's session of the Conference opened with an address on the War Pensions Act, by Major W. H. Parsons, M.C., Chairman of the Board of Pension Commissioners. In introducing Comrade Major Parsons, the Dominion President, reminded the conference, that the lecturer was a Newfoundlander, who served with distinction overseas, and while as Chairman of the Board of Pension Commissioners, he very often had to act against his good nature in performance of his duties, but in the interpretation of the Act Comrades may rest assured that everything possible would be done by him.

Major Parsons then addressed the Conference. He thanked the President for his kind remarks and the Conference for its reception, and stated his position, that, although, he was heart and soul with the ex-service men of Newfoundland, he still had to abide by the Pensions Act as it stood on the Statutes. He then dealt with the history of pensions from the time of the Athenians, which showed his thorough knowledge of the subject. The pensions act was then reviewed in conjunction with that of Canada and the United Kingdom. The amendments recently made to both acts were made known to the conference and the interpretation placed upon them by their Governments. The ex-service men and dependents of Newfoundland who were penalized under the present Act would benefit greatly by the adoption of those amendments. After

his address Major Parsons undertook to answer any questions put to him, that were not of an individual nature. Advantage was taken of the offer by delegates who had many points to raise. A vote of thanks was proposed by Comrade Nugent, Grand Falls, and seconded by Thomas Higgins, Catalina, and carried by acclamation. Comrade Parsons then thanked the Conference and assured it that anything he could do to help the Conference in its endeavours would be gladly done.

The programme of Veterans' Week was then laid before the Conference and explained by the President.

Reports of sub-committees were then tabled as follows:—

TUBERCULOSIS AND PENSIONS.

Report of sub-committee appointed to enquire into the better treatment of tuberculosis ex-service men and the granting of pensions to same.

It was stated that there were roughly two hundred ex-service men in Newfoundland who were suffering from tuberculosis in one form or another and who were not receiving pensions.

Obstacles:—The argument put forward by the Board of Pensions Commissioners was that such disabilities were not due to Service as they were discharged A1 and that in the intervening time which has elapsed between their discharge and the present time might be considered as sufficient time for those to have contracted tuberculosis while pursuing their ordinary post war avocations.

Remedies:—Section 13 (Pensions Act, 1922) regarding date of application should be amended to seven years after discharge for pension application. Men affected with T.B. in this period should be considered to have same on active service.

The case of men who subsequent to receiving wounds developed T.B. and who married and as a consequence thereof were ineligible for a soldier's allowance, was considered and it was recommended for the approval of the Conference that married men's allowance should be paid to such men.

PENSIONS COMMITTEE. The interim report of the Pensions Committee was received and ordered to stand over until the final report was submitted.

SUDBURY MILITARY HOSPITAL.

The report of the sub-committee appointed to investigate the conditions of Sudbury Military Hospital revealed a deplorable state of affairs in that institution. As a result of this investigation drastic resolutions will be sent to the Government.

CONSTITUTION COMMITTEE. Much progress was made with the redrafting of a new constitution which will have a wider scope than the original Constitution.

The Conference adjourned at 12.30 a.m.

Hr. Grace Solid For The Liberal Party

The Evening Advocate.

St. John's.
Dear Sir:—A meeting of the supporters of the Liberal Party was held to-night in St. Paul's Hall and on motion Mr. Herbert Andrews was appointed Chairman and John Downing Secretary. After some timely remarks by the Chairman, he then called upon A. E. Hickman, Prime Minister, to address the meeting. The hour being late, as the candidates had been delayed in other parts of the District, his address was brief. He showed his audience that his aim was to save this country and her finances from a gang of men that could not hold office longer than forty eight hours, and to clean up without fear or favor. He referred to members of the Executive who were going to assist him. With Lloyd, Barnes, Cave and others the party and progress are assured.

Mr. A. Calpin, the next speaker, was also brief but to the point. He is known throughout the District as a friend to every man and should be a great help to the Government Elect.

Mr. F. C. Archibald followed, he was in the fight sincerely and honestly and was going to contest it honorably. He dealt with the different matters since the last General Election, the dissolution, the forty eight hour Government, and how this same crowd of incapables are asking the Electorate to put them back again.

The meeting was as orderly as was ever held in Hr. Grace and considering the late hour largely attended. The committee was estimated at 300. After closing with the National Anthem cheers were called for and given for the Winning Team: HICKMAN, CALPIN and ARCHIBALD.
